

YOUR LOGO HERE

LP GAS IS A SAFE, CLEAN, INSTANT, PORTABLE AND AFFORDABLE ENERGY SOLUTION. HOWEVER, TO ENSURE YOUR SAFETY, ALWAYS BUY GAS FROM A FULLY COMPLIANT LP GAS DISTRIBUTOR THAT ONLY SELLS LEGALLY FILLED CYLINDERS.

Do Not Buy Illegally Refilled or Traded Gas Cylinders

Your safety - and that of your family and community - should never be compromised. Purchasing illegally refilled commercially branded gas cylinders from unauthorized sources is dangerous, irresponsible, and unlawful.

Safe LP Gas Distributors Network - QR Code Verification

The Safe LP Gas Distributors Network of South Africa is a network of reputable LP Gas Distributors throughout South Africa who are fully compliant as required by law, distributing safe LP gas to end users.

- All members receive a QR code that links to their profile on the network. They should make it available on their marketing material, in store or on delivery.
- Scan the QR code with your camera app. This will take you to their profile.
- Ensure the distributor status is valid on the network. Verify business and address.
- All members are required to sign a code of conduct with security checks in place.
